How to Guide - Inland Rate Search

Inland Rate Search

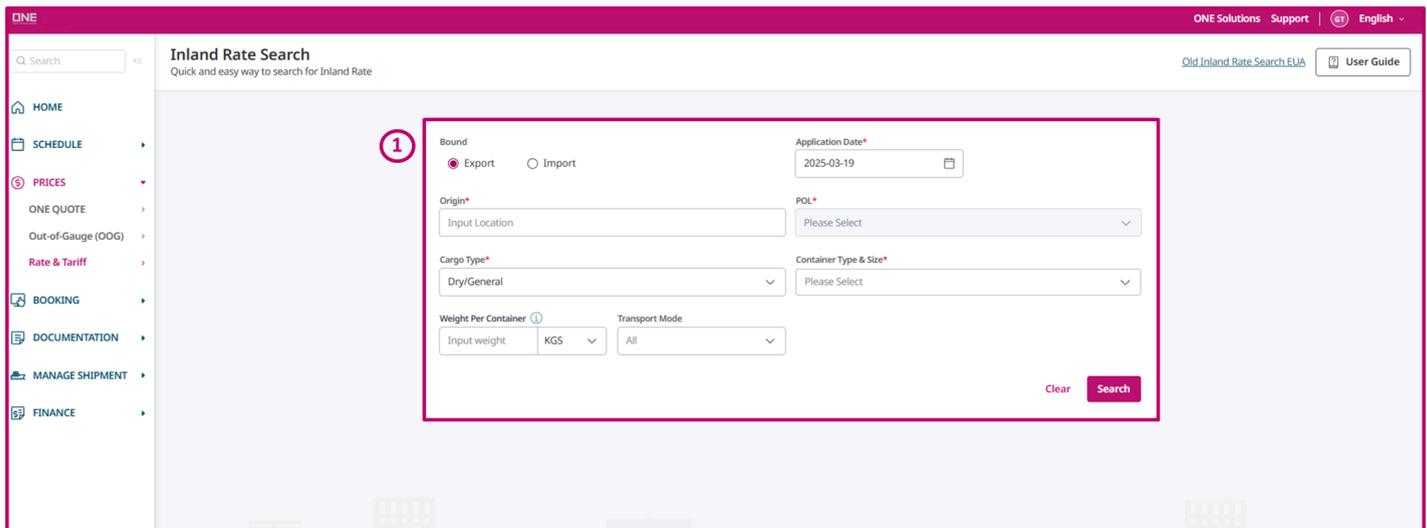

This service is where customers can search inland rates by providing all the mandatory information marked with red asterisk (*).

To access this service go to PRICES > Rate & Tariff > Inland Rate > Inland Rate Search.

Inland Rate Features Summary

1. Search detail - details to put in to get the latest update and nearest inland rate amount.

2. Result details - showing the information by the Origin/ Destination, Application Date, Cargo Type and Tariff Code.

How to Guide - Inland Rate Search

Note: Tariff Code information is not available for EUA location.

Can be filtered by the Charge Type, POL/POD, Container Type & Size, Transport Mode and Truck Trip Type (EUA location only).

Further details indicated in table columns: POL/POD, Container Type & Size, Transport Mode, Currency, Rate, Weight Range, Expiry Date and Remarks.

How to Use the Inland Rate Search

1. User can choose the Bound to search for the rate:
 - a. Export: Rate at the Origin (default value).
 - b. Import: Rate at the Destination.

2. User can choose the Application Date to get the expected information (one year back, current year and next year).

Note: Default is the current date.

3. User can input the location by inputting at least 3 characters and above to get the suggestion list as dropdown.
 - a. Origin (Export Bound)
 - b. Destination (Import Bound)
4. User can choose the multiple POL/ POD from the dropdown list based on the chosen Origin/ Destination.
 - a. POL (Export Bound), show the calling port only.
 - b. POD (Import Bound), show the calling port only.

Select All

One-way

Roundtrip

10. If the Origin/ Destination is East Asia, South Asia, West Asia, North America or Latin America region, the user can choose the Tariff Code from the dropdown list based on the Origin/ POL or Destination/ POD field. If only one value is available, then the value is auto filled.

Origin* CHICAGO HEIGHTS, IL, UNITED STATES

POL* Selected 1 POL

Tariff Code* **10** ONEY-404 (ONE USA Outbound Inland Rates and Rules Tariff)

Cargo Type* Dry/General

11. User can remove the conditions by:
- Deselect each condition individually.
 - Clicking the cross (x) mark.
 - Remove it completely using the Clear button.
12. Then click the Search button to show results accordingly.

How to Guide - Inland Rate Search

The screenshot shows the Inland Rate Search form with the following fields and callouts:

- Bound:** Radio buttons for Export (selected) and Import.
- Application Date*:** Text input field with date 2025-03-19 and a calendar icon.
- Origin*:** Text input field with value CHICAGO HEIGHTS, IL, UNITED STATES.
- Tariff Code* (i):** Dropdown menu with value ONEY-404 (ONE USA Outbound Inland Rates and Rules Tariff).
- Container Type & Size*:** Dropdown menu with value Selected 2 Containers and a close button (b).
- Application Date*:** Text input field with date 2025-03-19 and a calendar icon.
- POL*:** Text input field with value Selected 1 POL.
- Cargo Type*:** Text input field with value Dry/General.
- Weight Per Container (i):** Text input field with value Input weight and a unit dropdown menu with value KGS.
- Mode Selection:** A list of modes with checkboxes:
 - Select All (11)
 - Barge (checked, a)
 - Barge & Truck (checked)
 - Rail
 - Rail & Truck
 - Truck (checked)
- Selected 3 Modes:** Dropdown menu with value Selected 3 Modes (12).
- Buttons:** Clear (c) and Search buttons.

Note: Inline message “Mandatory Field” will appear if a required field is left blank when triggering the Search button.

The close-up shows the **Container Type & Size*** dropdown menu with the text "Select or input container" and a downward arrow. Below the dropdown, a red-bordered box contains the text "Mandatory Field."

13. User may click the hyperlink and will be redirected to the Europe and Africa Local Surcharges on a different tab. This is applicable if Origin/ Destination is from the EUA region.
14. Users have the option to download the data in the search result as an Excel or PDF file by clicking the Download All button.
15. Send as Attachment button will display a popup to enter email addresses (up to 10 recipients).The file format received in the mailbox after triggering the **Send** button will match the one selected in the Download popup screen.

Tariff Rule Summary

Organization Ocean Network Express (North America) Inc.
Tariff Code ONEY-404
Tariff Name ONE USA Outbound Inland Rates and Rules Tariff

Effective Date	2023-03-23	Publish Date	2023-03-23
Rule No.	2.011	Rule Name	US MILEAGE RULE

A. In absence of specific per container rates in the applicable tariff or Service Contract, for store door and/or rail ramp service provided for herein, the following service charges will be assessed per container over the applicable nearest CY or port rates, regardless whether or not the container is fully loaded. The name of the store door point together with the amount of the charge will be shown on all bills of lading.

Miles to / from nearest CY location:
0 to 25 Miles = USD 750 per container
26 to 50 Miles = USD 1500 per container

For every 50 additional miles, an additional charge of USD 750 shall apply (mileage to be rounded up to the nearest 50 miles). The total inland rate will be subject to the Fuel Surcharge as published in Rule 101.018 of Tariff ONEY-202.

Example: if miles to the nearest CY location is 96 miles, then the US mileage charge is USD 1500 + USD 750 = USD 2250.

The mileage distance of the store door service provided to or from the nearest CY locations shall be determined on a one-way basis by the US Mileage Calculator at <https://ecom.one-line.com/one-ecom/prices-us-mileage-calculator>

B. For shipments of Hazardous cargo in Class 2, 3, 4, 5, 6, and 8, an additional charge of USD 800 per container shall apply in addition to the charges listed under sub-rule A and B above. However, all rules and fines governing undeclared hazardous cargo as defined in the applicable tariff shall also apply.

Tariff Rule Summary

Organization Ocean Network Express (North America) Inc.
Tariff Code ONEY-303
